

THURS, NOV 6, 1PM TOUR OF SINGLE STREAM RECYCLING.

Learn the amazing process how your co-mingled recycling is processed.

Sponsor: "Active Group" of the Oak Hill Association

[SINGLE STREAM RECYCLING TOUR](#):, 1 PM, Thursday, Nov 6.

DURATION: < 1 hour (The tour lasts 40 minutes, or longer, depending upon number of questions addressed to "Mike", the Waste Management supervisor who conducts the tour.)

RESERVE your spot with Steve Miller, stevemiller@comcast.net 732-977-4370

TOUR LOCATION: 800 Towbin Avenue, Lakewood. This is at the Northern Recycling Center of Ocean County. The facility is operated by Waste Management. Waste Management owns and/or operates NUMEROUS other sites in the US.

DIRECTIONS: 30 minutes from Holmdel/Middletown area. (2 miles off the Garden State Parkway). Enter through the 800 Towbin Avenue entrance and follow road to the front of the facility. When you arrive for your tour please go inside the Waste Management/Recycle America office to let them know you have arrived for your tour.

Map and written directions: <http://www.co.ocean.nj.us/WebContentFiles//d4e8c56a-9c4a-481b-ab57-2575684f495a.pdf>

Each community may have small differences, but probably has a similar recycling process as that used by Middletown..

Middletown curb recycling is carted to the Tinton Falls Transfer Station, and then is carted to a recycling facility owned & operated by Waste Management in Newark, NJ.

A video of the Newark operation is at <http://www.youtube.com/watch?v=OcgqQBbssqM>

This OHA tour, at the Lakewood Waste Management facility, is easier to reach than Newark; also, glass-enclosed platforms and corridors provide safe and comfortable public tours.
